Experience

R3BL Lead Digital Product Designer

Participated in in-house design sprints to test ideas to find product-market fit. Designed Universal Android Media Player sample app for Google's Android media developer relations team. Also designed an Android/iOS app for TruckX – electronic logbook and trip planning app for truck drivers.

Nov 2016 – Present | Palo Alto, CA

Yodas Lead Product Designer

Led the product design efforts while executing user research and usability testing to find out the needs and challenges of software engineers in the Bay Area.

Jun 2016 – Nov 2016 | Mountain View, CA

Abbey Road Studios UX / UI Designer (Contract)

I was the lead designer in this project creating every design for the public site. The goal of this large project was to redesign the old Abbey Road Studios website and create an easy to navigate single home for all Abby Road brands (studios, institute, RED, store, crossing cam).

Jan 2015 – Aug 2015 | Remote

WholeWorldBand UX / UI Designer (Contract)

Contracted to design WholeWorldBand's web platform and parts of the new iOS app.

May 2014 – Aug 2014 | Dun Laoghaire, Ireland

Inmusik Product Design Director / Co-Founder

Designed social music network (web and iOS) for emerging musicians to connect, engage and monetize their current and future fans.

Jan 2012 – Jun 2016 | Redwood City, CA
